COMPANY PROFILE:

Infosys is a global leader in next-generation digital services and consulting. We enable clients in 46 countries to navigate their digital transformation. With nearly four decades of experience in managing the systems and workings of global enterprises, we expertly steer our clients through their digital journey. We do it by enabling the enterprise with an AI-powered core that helps prioritize the execution of change. We also empower the business with agile digital at scale to deliver unprecedented levels of performance and customer delight. Our always-on learning agenda drives their continuous improvement through building and transferring digital skills, expertise, and ideas from our innovation ecosystem.

Infosys has a growing global presence with 242,371 employees. Globally, we have operations spread across 191 locations in 46 countries. At Infosys, we believe our responsibilities extend beyond business. That is why we established the Infosys Foundation – to provide assistance to

some of the more socially and economically depressed sectors of the communities in which we work. And that is why we behave ethically and honestly in all our interactions – with our clients, our partners, and our employees.

The industrial visit was a very good exposure for the students in terms of enhancing their knowledge and acquiring required skills for the industry entry and learnt many things from the visit.
