COMPANY PROFILE:

ITChamps Software Private Limited is a well-established and agile IT services company providing end to end enterprise solutions to customers since 2005. With operations in Mysore and Bangalore (IT Capital of India), we have been serving customers globally to their utmost satisfaction. We are proud of the team we have built over the years. Both, past and present I.T. Champions continue to strive hard to deliver simple solutions to complex business challenges faced by our customers in their operations. A clear testimonial to that is the references and repeat business that we get from our esteemed customers.

Maximizing the return on IT investments of our customers by providing easy to use and simple solutions to ensure smooth flow of business transactions without worrying about the underlying technology or infrastructure and enable the customer to focus on their core business. To be recognized as the best IT Solutions provider across the globe while giving opportunities and exposure to fresh talent and fulfilling social responsibilities of preserving values, ethics and transparency in all transactions.

The industrial visit was a very good exposure for the students in terms of enhancing their knowledge and acquiring required skills for the industry entry.
